N. B. The ſaid *Cowper* was bred in the Profeſſion of Diſtillery, being the only Son of *Edward Cowper*, who firſt introduced the Uſquebaugh and other fine Cordials into *England*, in the Year 1706; and, has ſince then, been in ſeveral foreign Countries, where he took the utmoſt Pains to enter into their Methods in his Calling; an Advantage which, joined to his own Experience at home, gives him an undoubted Superiority in the Art and Myſtery of his Profeſſion: He therefore humbly hopes to have the Preference to Foreigners, in regard that his Liquors infinitely ſurpaſs all thoſe which were ever imported from abroad.

All Connoiſſeurs are invited to taſte *Gratis*, at his Warehouſe as above.

He has lately ſent Liquors to *Paris*, *Italy*, *Flanders*, and *Holland*, and is daily in Expectation of Orders from ſeveral Courts of *Europe*.
